VOL. LIV

THE PIOCHE WEEKLY RECORD.

PIOCHE, NEVADA, FRIDAY, SEPTEMBER 11 1903.

NEW PLA ADOPTED BY A. O. U. W.

Reno G zette: The new plan of insurance that was adopted by the members of the A. O. U W. at the morting of the grand lodge held in Reno Tuesday, and which the local lodge have been figuring on, has been explained by J. G. Tate of Donver, the Past Supreme Master Workman.

In brief, the explanation of the new ruling is as follows:

The A. O. U. W. has been existence thirty five years. During that time it has paid \$129,000 000 to families of its deceased members. From 1865 to 1896 it operated undewhat is known as the "leval plan"each member paid \$1 per assessment but there was no limit is to the number. In 1896 a new plan was put in to operation, which fixed the rates according to age, and advancing from 65 ceuts per assessment on \$1,000 at 18 years of age to \$1.91 at the age of fifty and over. At the time the change was made

it was sought to put a reserve fund in force, to be levied with each assessment, and consisting of 25 cents per month on each \$1,000 insurance in force. This feature of the plan was almost unanimously rejected. Had this reserve fund been created, the order would now be absolutely safe. The assessment were limited to twelve in any one year. it was soon discovered that this plan was inadeqlate to say the death looses, and at the session of the Supreme Lodge, held in June. 1903, new rates were established, which will put the order on a basis as to solvency, equel to that of any regular insurance company in this

The new plan gives the members the option to cloose between a rate which remains level throughout life, or a plan which pays a very small rate in early years, but advances with age untill fif y five years is ranched, after which level rates of \$4.40 per \$1000 is charged. In order that the older members may not be undaly burdened a guaranty faud is created from payment of younger members, aggregate the sum of \$30,000,000. This money is divided between the members now over fifty fiveyears of age and they may use it as safe, or they in ty cease paying assessment, and take it in the form of paid-up insurance.

For example: A member now seventy years of age, under the new plan, need pay no more assessment and can take a paid up certificate for \$900, wich is more money than any member has paid into the order as assessment.

A member now seventy-five can take a paid up certificate for \$1.138. The man, now fifty-five years o.d, who pays the new rates, will have as a reserve, which he can take as paidup usurance, the sum of \$692 on \$1000 of insurance when he reaches the age of seventy-five or \$1384 on \$2000 gertificate.

A young man at eighteen years of age will pay \$2.50 per assessment an \$2000 he reaches fifty five years of age, after which he only pay \$2 per arsessment.

He will not only pay a less sum at fifty five then be did at eighteen, but will have a reserve, which can take in the form of paid-up insurance

in the sum of \$838. Under the new plan the rate of assessment has been increased, but

every certificate will be participating The order can now look the world

in the face and defy to prove that it 68 E. is not able to pay all of its obligation The A. O. U. W. has done a vast 68 E. amount of good, many families in the city having received \$2000.

The order never refused to pay an honest claim. It is now the safest 69 E. and grandest fraternal society on the face of the earth.

A success seems larger when a fail 69 E. ure is used for the measuring stick.

The laggard's idea is to press a button for everything and do nothing

A Georgia contemporary declares their preferred rights. that the seedless orange has come to stay, but the seedless grape has not said townships will be received yet arrived. And the world is still August 5, 1903. waiting for the gripeless watermellon and the jagless booze.
